- Individual motorcyclists should develop riding habits to ensure full integration with other types of road users.
- Ride safely and avoid aggressive and competitive riding.
- Use only routes which are open to motorcyclists.
- Ride like a professional by riding at a quiet and unobtrusive pace when riding in groups.
- Remember that our cities and our roads are not circuits.

### Noise annoyance

- Ride politely and limit noise pollution by using your horn only in an emergency.
- Use a standard or another quiet exhaust system and keep audio systems at a low level.

### Environmental care

- Save petrol and reduce pollution by avoiding unnecessary idling of engines.
- Respect nature by not travelling on paths which risk being damaged beyond a point of natural recovery.
- Protect wildlife and its natural habitat by riding intelligently.
- Ensure that your used oil, tyres, batteries and other recyclable items are properly recycled.
- Encourage a rational use of fuel and space economy by using motorcycles instead of driving automobiles.
